

AUSRACK LITE

The most cost effective rack on the Australian market. With an impressive list of inclusive features and accessories, Ausrack Lite is a complete system suitable for networking applications.

Ausrack Lite is a stylish 19" cabinet designed for standalone applications housing network equipment such as patch panels and modems. It is finished in a neutral colour, with tempered smoked glass front door for maximum visibility of installed equipment.

Ausrack Lite is complete with all the basic equipment you need to get up and going. Standard features and accessories include, fixed shelves, a roof mounted fan tray, a 6 way Power Distribution Unit (PDU), an earthing point, adjustable feet and castor kit.

For the most cost effective 19" rack for networking applications, look no further than Ausrack Lite from B&R.

AUSRACK LITE

Technical Information

Designed to be compliant with SSI and EIA specifications, Ausrack Lite is rated to a static load of 500kg. The 19" rails are both notched and printed with RU positions, for easy alignment and placement of equipment. The rails are movable to enable flexible positioning of installed equipment. All cabinet doors are lockable, with the front door featuring a low profile, easy to use pop out handle.
