

TELECOMMUNICATION RACKS

Customer Cabinets

A range of enclosures designed for installation of telecommunications equipment inside customer's premises. All enclosures are supplied with an earth tree, a component tube containing four adjustable feet, floor bracing brackets and various fasteners and accessories to facilitate easy installation.

All customer cabinets have the following equipment mounting positions:

Front Mount	19"/21"
75mm Mount	19"/21"
140/170mm Mounts	21"
Rear Mount	19"
